

Anirban Basu

RESEARCHER IN COMPUTATIONAL TRUST, PRIVACY AND SECURITY

Diasta Ekoda no Mori 503, 2-20-3 Toyotama-kita, Nerima-ku, Tokyo 176-0012, Japan

☎ (+81) 80-3315-8649 | ✉ a.basu@xtremeybytes.com | 🌐 <http://www.anirbanbasu.com> | 📺 anirbanbasu | 📧 a.basu

“There is only one corner of the universe you can be certain of improving, and that’s your own self.” – Aldous Huxley

Summary

I have over 10 years of research experience, within both academia and industry, resulting over 70 research papers and over 10 Japanese patent applications. My research topics span from visualisation in augmented reality and reputation systems for networks to privacy preserving data mining. My research is based on a user-centric view of privacy and computational trust as an information security paradigm in an increasingly knowledge-based connected world. I like building things to solve real-world problems. Outside research and problem solving, I am keen on photography, videography and the associated travels.

Professional experience

KDDI Research (erstwhile KDDI R&D Laboratories)

Fujimino, Japan

SENIOR RESEARCHER

May. 2013 – present

- **Highlights:** Enhancing a portfolio of research in the multidisciplinary area of privacy, security, computational trust and knowledge in distributed computing, which now contains over 10 patents and over 60 research papers.
- **Selected projects:** (a) A multi-institutional EUR 3M EU-Japan Horizon 2020 funded project to realise a secure data storage and privacy-preserving analytics engine over heterogeneous multi-cloud environments spanning across national borders; (b) a multi-institutional JPY 375M Japanese government project on applied security and privacy in big data; and (c) a Toyota ITC and KDDI Research jointly funded collaborative project with ISTI-CNR and the University of Pisa on privacy risks in trajectory data.

Sole proprietorship

Tokyo, Japan

MOBILE APPS DEVELOPER AND TECHNOLOGY CONSULTANT

Aug. 2014 – present

- **Highlights:** Developing software, games and providing technology consultancy. My main full-time position is with KDDI Research.
- **Selected project:** An application to help users ‘remember’ complex passwords: <http://pa55.github.io/pa55nyaps/>.

Tokai University

Tokyo, Japan

POST-DOCTORAL RESEARCHER

Oct. 2010 – Mar. 2013

- **Highlights:** Proposed a privacy-preserving collaborative filtering scheme over encrypted domain and demonstrated the feasibility in real-world public cloud environments – the Google App Engine and the Amazon Elastic Beanstalk.
- **Project:** A multi-institutional JPY 500M+ Japanese government funded project on privacy-preserving data mining on the cloud.

University of Sussex

Brighton, UK

ASSOCIATE TUTOR (OCT. 2004 – JAN. 2010) AND RESEARCH FELLOW (OCT. 2008 – SEP. 2009)

Oct. 2004 – Jan. 2010

- **Highlights:** Re-developed a course module on electronic commerce technologies for the Masters degree programme funded by American Express, which was ranked amongst the top course modules in the department.
- **Projects:** Two (GBP 1M and GBP 1.4M) EPSRC funded research projects related to computational trust.

Various organisations

Brighton, UK

TECHNOLOGY CONSULTANT (JUL. 2005 – SEP. 2008; JUN. 2010 – SEP. 2010)

Jul. 2005 – Sep. 2010

- **Highlights:** Worked twice as a technology consultant to the University of Sussex library. Developed Web Services hooks for an existing Java EE solution for Class Calendar Ltd. Co-developed computational skills training videos for Claro Training Ltd.

University of Sussex

Brighton, UK

STEP SUMMER INTERN (JUL. 2003 – AUG. 2003) AND THEN RESEARCH ASSISTANT

Jul. 2003 – Sep. 2004

- **Highlights:** Conceived and built a lightweight augmented reality based visualisation technology based on backend XML-based storage. Submitted (and later published) 4 international conference papers before finishing the Bachelor degree.
- **Project:** €2.8M EU Framework Programme V funded project on digital cultural heritage.
- **Award:** Shell Technology Enterprise Programme (STEP, UK) Local Finalist.

Professional affiliations

IFIPTM

Tokyo, Japan

PUBLICITY CHAIR (JUN. 2010 – JUN. 2015) AND SECRETARY (JUN. 2015 – PRESENT)

Jun. 2010 – present

- **Summary:** Formerly the Publicity Chair, now serving as the Secretary of the premier venue on computational trust management – the IFIP Working Group 11.11.

Rutgers University

Newark, NJ, USA

VISITING RESEARCH FELLOW

Oct. 2014 – present

- **Summary:** Working on collaborative research with Prof. Jaideep Vaidya within the Institute for Data Science, Learning, and Applications (I-DSL). This position does not require me to be based in the USA.

University of Sussex

Brighton, UK

VISITING RESEARCH FELLOW

Jan. 2010 – present

- **Summary:** Working on collaborative research within the Foundations of Software Systems (FoSS) group at the Department of Informatics. This position does not require me to be based in the UK.

Education

University of Sussex

DOCTOR OF PHILOSOPHY (D.PHIL.) IN COMPUTER SCIENCE AND ARTIFICIAL INTELLIGENCE

Brighton, UK
Oct. 2004 – Feb. 2010

- **Scholarship:** (2004–2007) “Graduate Teaching Assistantship”, Department of Informatics (University of Sussex)
- **Supervisors:** Prof. Ian Wakeman and Dr. Dan Chalmers.
- **Examiners:** Dr. Des Watson (University of Sussex) and Prof. David Parish (Loughborough University)
- **Doctoral thesis:** ‘A Reputation Framework for Behavioural History’ proposed a high-level, generalised, policy-independent and context-aware framework to build and share reputations of network clients based on their behavioural history in order to inform future interactions. PDF: <http://abasu.xtremebytes.com/thesis-dphil2010.pdf>.

University of Sussex

BACHELOR OF ENGINEERING (B.ENG.) IN COMPUTER SYSTEMS ENGINEERING

Brighton, UK
Oct. 2001 – Jun. 2004

- **Scholarship:** (2001–2004) “Dean’s Bursary”, Department of Engineering and Design (University of Sussex)
- **Grade:** First Class Honours.
- **Awards:** (1) IEE Sussex Branch local prize for Outstanding Performance in Computer Systems Engineering (B.Eng.); and (2) the Eurotherm company prize for Best Electrical, Electronic or Computer Systems Engineering project.
- **Final year project:** ‘ARCOLite – a visualisation system for viewing museum artefacts’ presented a lightweight XML-based repository and a desktop visualisation in both virtual and augmented reality. PDF: <http://abasu.xtremebytes.com/thesis-beng2004.pdf>.

Accolades

INVITED TALKS

- | | | |
|------|--|--------------------|
| 2017 | IFIP TM – Doctoral Symposium , Homomorphic Encryption – an answer to privacy? | Göteborg, Sweden |
| 2015 | Kyushu University – Next Generation Cryptography , Homomorphic Encryption – are we there yet? | Fukuoka, Japan |
| 2012 | CSA – SecureCloud , Practical privacy using homomorphic encryption – a myth or reality | Frankfurt, Germany |

AWARDS

- | | | |
|------|---|--------------|
| 2004 | IEE Sussex Branch local prize , for Outstanding Performance in Computer Systems Engineering (B.Eng.) | Brighton, UK |
| 2004 | Eurotherm company prize , for Best Electrical, Electronic or Computer Systems Engineering project | Brighton, UK |
| 2003 | Local Finalist , Shell Technology Enterprise Programme (STEP) | Brighton, UK |

SCHOLARSHIPS

- | | | |
|-----------|---|--------------|
| 2004–2007 | Graduate Teaching Assistantship , Department of Informatics (University of Sussex) | Brighton, UK |
| 2001–2004 | Dean’s Bursary , Department of Engineering and Design (University of Sussex) | Brighton, UK |
